

# 1982 Brake System Applications

10-3

## GENERAL MOTORS

### BRAKE SYSTEM APPLICATIONS

<sup>1</sup> Application	Type	Make & Design	<sup>2</sup> Master Cylinder	Power Unit
C10 (Diesel) Front Rear	Disc Drum	Delco — Floating Caliper Delco — Single Anchor	Delco — Dual Piston	Bendix Hydroboost
C10 (Gas), K & G10, G20 Front Rear	Disc Drum	Delco — Floating Caliper Delco — Single Anchor	Delco — Dual Piston	<sup>4</sup> Bendix or Delco Single Diaphragm <sup>4</sup> Bendix or Delco Dual Diaphragm
C & K20 Front Rear	Disc Drum	Delco — Floating Caliper Delco — Single Anchor	Delco — Dual Piston	Bendix or Delco Dual Diaphragm
C30 Front Rear	Disc Drum	<sup>3</sup> Bendix — Floating Caliper Delco — Single Anchor	Delco — Dual Piston	Bendix or Delco Dual Diaphragm <sup>4</sup> Bendix Hydroboost
G30 Front Rear	Disc Drum	<sup>3</sup> Delco — Floating Caliper Delco — Single Anchor	Delco — Dual Piston <sup>6</sup> Bendix-Mini	Bendix or Delco Dual Diaphragm
K30 Front Rear	Disc Drum	Bendix — Sliding Caliper Delco — Single Anchor	Delco — Dual Piston	<sup>4</sup> Bendix Hydroboost
P30 Motor Home Chassis Front Rear	Disc <sup>5</sup> Drum	Bendix — Sliding Caliper Delco — Single Anchor	Delco — Dual Piston	Bendix Hydroboost
P30 Forward Control Front Rear	Disc <sup>5</sup> Drum	<sup>3</sup> Bendix — Floating Caliper Delco — Single Anchor	Delco — Dual Piston	Bendix or Delco Dual Piston <sup>4</sup> Bendix Hydroboost
S10/15 Front Rear	Disc Drum	Bendix — Sliding Caliper Delco — Single Anchor	Delco — Quick Take-Up	Bendix, Delco Single or Dual Diaphragm

<sup>1</sup> — Vehicle series numbers used in this chart are abbreviated for common reference to Chevrolet and GMC models.

<sup>2</sup> — All models with Low-Drag calipers use Delco Quick Take-Up master cylinder.

<sup>3</sup> — Models with Hydroboost use Bendix Sliding Caliper disc brakes.

<sup>4</sup> — Standard on some models, optional on others.

<sup>5</sup> — Bendix Sliding Caliper disc brakes used on models with 11,000 lb. rear axle.

<sup>6</sup> — Used on models with Hydroboost.

## JEEP

### BRAKE SYSTEM APPLICATIONS

Application	Type	Make & Design	Master Cylinder	Power Unit
"CJ" & Scrambler Front Rear	Disc Drum	Bendix — Sliding Caliper <sup>1</sup> Bendix — Single Anchor	Delco Dual Piston	Delco — Single Diaphragm
Cherokee, Wagoneer & J10 Pickup Front Rear	Disc Drum	Delco — Floating Caliper <sup>2</sup> Delco — Single Anchor	Delco Quick Take-Up	Delco — Single Diaphragm
J20 Pickup Front Rear	Disc Drum	Delco — Floating Caliper <sup>2</sup> Delco — Single Anchor	Delco Quick Take-Up	Delco — Tandem Diaphragm

<sup>1</sup> — Cable type adjuster.

<sup>2</sup> — Lever type adjuster.
