## Chrysler Corp.

### 1977 MODELS

**Engine Code Location** — Fifth digit of thirteen digit serial number, stamped on the Vehicle Identification Plate and located on top of instrument panel visible through windshield, identifies engine.

**Engine Serial Number Location** — On 225", 400" and 440" engines, first digit indicates model year, next three digits designate displacement. On 318" and 360" engines, first digit indicates model year, next letter designates manufacturing plant and the next three digits designate displacement. Engine serial number is located as follows:

**225" 6 Cyl.** — Located on right side of block below number one spark plug.

**318" & 360" V8** — Located on left front of block below cylinder head.

**400" V8** — Located on cylinder block just forward of number two cylinder bore and adjacent to distributor.

**440" V8** — Left bank, pad adjacent to front tappet rail.
